YOUNG AUTHORESS.

Death of Mrs. Fannie Brasher Harmon in Texas.

Miss Fannie Brasher, the young Hopkinsville authoress, who went to Texas a few years ago with her mother and subsequently married, died a few weeks ago. She was a daughter of the late John Brasher and a niece of Mr. L. T. Brasher, of this city. The following account of her death is from the Corsicana Courier-Light:

"She was a devoted daughter, sister, and wife but the little baby she leaves will never know the devotion of a mother."

The funeral took place from the First Christian Church of which she was a devoted member. Interment in Oakwood Cemetery. Big crowds were present to pay their last respects to her, whose life was the embodiment of purity, gentleness and love.

This paper joined by a host of friends extends sincere sympathy to the bereaved mother, sisters, brother and husband.

"She is not dead but sleeping."

CLARK TANDY.

Wins an Oratorical Contest at Lexington.

The Lexington Democrat says Clark Tandy, of this city, won first honors in the oratorical contest of the Patterson Literary Society at Lexington. His subject was "Reign of Law." There were five contestants and it took the three judges half an hour to decide on the winner. Will E. Gary, also of Hopkinsville, was another of the contestants. Mr. Tandy will compete with Mr. F. T. Hedges, of the Union Society, and the winner will represent the State College in the Intercollegiate contest April 12.

WHOLESALE THEFTS. FUSION AND REFORM.

Carpetbaggers Robbing the Government at Manila.

The Postal Steal in Cuba Not a Circumstance to the Scandal at Manila.

Manila, March 31.—A scandal of great proportions has developed in the Commissary Department here. Thousands of dollars' worth of supplies shipped to the army have been stolen by those in the plot and sold.

Capt. Frederick J. Burrows, of the Thirtieth volunteer infantry, Quartermaster of the Department of Southern Luzon, together with seven Commissary Sergeants, several civilian clerks, a prominent government contractor, the assistant manager of the Hotel Oriente, the proprietors of three of the largest bakeries in Manila, a number of storekeepers and other persons have been arrested. The investigation has scarcely begun; but thousands of sacks of flour, a quantity of bacon, and wagon loads of other goods, all bearing the government mark, have been found in the possession of unauthorized persons.

Fresh Scandals Daily.

New scandals are developed daily. Illicit transactions have been traced back to June, 1900, and it is probable that there are others of earlier date.

The exorbitant tariff on provisions makes the surreptitious sale of commissary supplies immensely profitable.

It is understood that other United States officers may be arrested.

Lieut. Philip K. Sweet, of the Forty-sixth volunteer infantry, is prosecuting the investigation, under the direction of Col. Wilder, Chief of police.

WORKED A GAME.

Peter Postell Caught By a Slick Confidence Man.

Claimed to Be a New Drummer For a Well Known Nashville House.

Peter Postell, Jr., was caught by a confidence man last Tuesday, who gave him as G. N. Butler and claimed to be a substitute drummer for Clark, Webb & Co., of Nashville, in place of N. E. Martin, the regular salesman, whom he claimed was sick at Guthrie.

Postell bought a small bill of goods, discounted it for cash and gave a check for \$15. This check Butler, who was registered as G. W. Belcher at Hotel Latham, after forging the endorsement of the Nashville firm, paid a \$5 bill with and got \$10 in change, leaving the city on the night train for Evansville.

It was several days afterwards that Postell found out, when the goods did not come, that he had been buncoed.

Belcher is believed to be the same slick swindler who has been operating in this part of the country for three or four months under various assumed names.

BLOOD POISONING

Gaused Death of Most Estimable Woman Near City.

The wife of Mr. John Byron, who lives about six miles east of the city on the Fairview pike, died Sunday, of blood poisoning. She had only been sick about ten days.

Mrs. Byron was 35 years old and a consistent member of the Christian church. She leaves, besides a husband and two children, a large circle of friends. The interment took place in the Gray burying

Winning Ticket Placed in The Field Saturday.

Non-Partisan Movement To Reduce Corruption And Reform the County.

A fusion reform ticket for county offices has been nominated, composed of good and capable men, and the court house ring finds itself confronted by a condition far more serious than that which boded its way through two months ago. A coalition of several forces opposed to gang rule means that the nominations purchased by the gang will prove to be worthless and this is what has been accomplished by representatives of the Democrats and Reform Republicans.

The Democrats at conferences held Friday night and Saturday morning appointed a committee of ten, upon which there were several members of the Democratic county committee and two of the city councilmen. This committee was authorized to meet a similar committee from the Reform Republicans. The mass convention of two weeks before reassembled at Moayon's Hall Saturday at 1 p. m. and the committee of seven previously appointed was increased to ten and at 3 o'clock the first joint session of the two committees was held.

There was no trouble whatever in coming to terms and in an hour's time the following fusion reform ticket had been agreed upon:

For County Judge.

J. Fagan Dixon, Dem.

For County Attorney.

Frank Rives, Dem.

For County Court Clerk.

Harvie W. Breathitt, Rep.

For Sheriff.

Hilliard M. Dalton, Rep.

For Assessor.

David Smith, Dem.

For School Superintendent.

Prof. U. L. Clardy, Dem.

For Jailor.

Milton A. Littlefield, Rep.

For Surveyor.

Henry B. Crunk, Dem.

For Representative.

Jan. B. Allensworth, Dem.

The various nominations were agreed to unanimously and the conference adjourned until 10 o'clock a. m. April 13, at which time any further action necessary to complete the ticket will be taken. The final work of the conference will be submitted to a joint mass meeting to be held at the Court House at 1 o'clock p. m. Monday May 6.

In the meanwhile a joint committee composed of seven will have charge of details looking to a complete fusion of Democrats, Gold Democrats and Reform Republicans.

The gentlemen nominated will be notified by this committee and it is believed that all will accept. Several have already signified their intention to accept. The leaders selected were not candidates, but were agreed upon and invited to lead in the effort to redeem the county from the court house ring that has disgraced the county and boasts of its ability to perpetuate itself and name its own successors. No action was taken in regard to the senatorial race, which is a district matter yet to be settled by the Democratic party. As Mr. Feland, the Republican nominee, is thoroughly identified with the Ring, arrangements will also be made to let him go up Salt river with his friends next November.

Fred Wallis' Wedding.

Invitations are out to the wedding of Mr. Fred Wallis and Miss Nannie W. Clay, at the home of the bride's parents, near Annetta, Ky., on the evening of April 10th at nine o'clock. They will be at home

SELF DESTRUCTION

Attempted By an Inmate of the Western Asylum.

Tried to Crush His Skull With an Iron Bar Taken from Window.

J. W. Winters, an inmate of the Western Asylum for the insane, attempted suicide in a peculiar manner last Friday night. After being locked in his room he succeeded in prying out one of the window bars and beat himself over the head with the heavy iron, cutting the flesh in a frightful manner. When the door was opened Winters was found lying upon the floor in a pool of blood. Physicians were called at once and the gaping wounds sewed up. While he is still very weak it is thought he will recover.

Winters was sent here for treatment from Daviess county about three months ago and it did not develop that he possessed a suicidal mania until he attempted the act of self destruction.

COLORED ELDER

Passes Away at Age of Eighty-Two.

Rev. George W. Jackson, the colored janitor at the First National Bank, died Friday night of Bright's disease, aged 82 years. He was Presiding Elder of the Methodist church (colored) for 33 years and had been a member of the order of Wise Men of America and Good Samaritans.

The funeral was conducted at the Union Tabernacle Sunday by Elder Warfield, assisted by several other ministers and the interment took place in the colored cemetery.

County Court Orders.

The following road overseers were recently appointed: Forest Mason for Swift Ford road from North end of Faulkner's lane to the Dover road; Robt. Faulkner for same road from Striped Bridge to Faulkner's lane, and B. Underwood for Hopkinsville and Madisonville road from the Myers' place to Lonesome Oak.

G. L. Mitchell was appointed a deputy sheriff.

Game And Fish Protection.

There was a meeting at the office of Hunter Wood, Jr., last Saturday to organize a local association to promote the propagation and better protection of the game and song birds and fish of the county. Another meeting will be held at the same place next Saturday (April 6th) at 3 o'clock p. m. and all who feel an interest in the subject are invited to attend.

MURDER CASE

Comes up To-Day on Motion for Bail.

Court Will Adjourn Last of Week—Jurors Discharged and Paid Off.

This is the sixth week of Circuit Court and the term will close next Thursday. The petit jurors were discharged Saturday. The total amount paid for jury service was \$1,336. This amount does not include the sum paid grand jurors. Bond in the case of John Wilson, indicted on a charge of malicious shooting, was fixed at \$200.

In the case of Bradshaw & Blaine against Walter O'Neal, appealed, a verdict for plaintiff for \$74.20 was returned.

D. A. Tandy vs. Chicago Fertilizer Company, suit for alleged failure to carry out contract, plaintiff awarded \$5,500.

Robt. Wall vs. L. & N. railroad company, judgment for \$35.

In the suit of J. A. Hayes against Lee Witte and others an appeal was taken.

An appeal was also taken in the suit of the Bank of Hopkinsville against the Western asylum.

Defendant demurred to the original petition in the suit of Charles Davis against the L. & N. railroad company for \$2,500 damages and plaintiff filed an amended petition. The case was then continued until the June term.

The case of Robert Morris, charged with murder, will come up this morning on a motion for bail. Witnesses will also be recognized and the case will go over until the next term.

CHARGED WITH MURDER

But Found Insane and Sent To Asylum Here.

Henry Chiles, col., wanted for murder in Todd county, was found to be of unsound mind by a jury at Elkhart last Friday, and ordered sent to the asylum. He was brought to this city Saturday by Sheriff Butler and placed in the institution. Some years ago Chiles was struck on the head and the blow caused a depression in his skull. His home was at Trenton.

OFFICE 219 SOUTH MAIN STREET.

TUESDAY, APRIL 2, 1901.

Gov. Beckham has returned from his Southern trip. Acting Governor L. H. Carter broke the record by pardoning only one convict while administering the office.

The city election comes off in the Chicago today. Carter Harrison, Democrat, and Judge Hancy, Republican, are the candidates for Mayor. Betting is strongly in favor of Harrison's re-election.

By a fire in the saleroom of the United States Hotel, at Cavite, Lieut. Commander Jesse M. Koper was suffocated in attempting to rescue some of his men. Twenty-two other officers and men were present, but all are recovering. The damage by fire was slight.

The President promptly pronounced Gen. Fred Funston to be a Brigadier General in the regular army, for his exploit in arresting Gen. Aguinaldo. The President's capture is expected to cause a collapse of the Philippine Republic, as the Philippines are left without a leader patriotic enough to resist the methods by which Aguinaldo was Benedict-Armed into the hands of the army of occupation.

The Republicans managed to get together in Nebraska at the last moment and elected a couple of bankers to fill the senatorial vacancies. Gov. Chas. H. Dietrich, who is Senator Allen's successor, will not resign as Governor until Congress meets next December and as Senator Allen serves until his successor qualifies, this will leave him on the pay roll during the next eight months. By-the-way, the new Senator is a relative of the Hopkinsville educator who bears exactly the same name.

The April number of Table Talk has much in it that relates to Easter and its customs. Its illustrated dishes are timely, tempting and practical, with full instructions about their preparation. Table Talk is the exponent of good living and it is a valuable assistant to the housewife in that it helps her to solve the perplexing problems of housekeeping. "A Little Chapter on Mushrooms," and "For the Gardens" are but brief mention of the several practical articles in this number. Our readers can obtain a recent number free, or the present issue for ten cents on application to the Table Talk Publishing Co., Philadelphia.

April brings the Easter issue of The American Queen to us brimful of Easter Fashions, Fancy Work, Fiction and all sorts of useful and home-life suggestions. The Fashions show not only simple styles, but suggest materials, trimmings, linings, etc., to be used in their make-up. The Fancy Work is inviting, and as all the patterns of the various designs shown are for sale at nominal prices, it is a most practical department. The Fiction is excellent, consisting of short, complete stories by celebrated and well-known writers.

Five prize articles are also published in this issue on the interesting topic, "What Does a Woman Admire most in a man?"

Its cover design pictures chiding Billy Bell and a chorister's voice proclaiming to the world the glad tidings "Christ is risen." The American Queen, 31 East 17 Street, New York City.

AMONG THE RAILWAYS

Rock Island Will Run Cheap Excursions to Colorado.

The Chicago, Rock Island and Pacific railway, which made a phenomenal success of cheap excursion rates to Colorado last season, has again asked its competitors in the Western and Southwestern Passenger associations to agree upon a series of cheap excursions to and from Denver, Colorado Springs and Pueblo for the approaching season, on the following basis: Tickets to be sold from Chicago and all territory up to Missouri river. June 18, 25, July 16, 23, Aug. 6, 13, 20 and 27, at rate of one fare plus \$2, or \$31.50 for the round trip.

On July 2 and 9 and Sept. 3 and 10 a rate of \$25 is to be made from Chicago, and \$35 from Missouri river points for the round trip. Intermediate territory will have proportionate rates. Tickets are to be sold from Missouri river points one day later than the dates given above in each case. Proportionate rates will be made to and from Glenwood Springs, Salt Lake City, and Ogden.

A series of East-bound excursions is also proposed, tickets to be sold from Colorado common points every Thursday, commencing with June 29 up to and including Sept. 12, at a rate of one fare plus \$2 for the round trip. All tickets will be limited for return passage to Oct. 31. These rates will be tendered connecting lines for basing purposes, which will probably insure a very low basis of rates throughout the United States for these excursions.

The Chicago, Rock Island and Pacific will unquestionably make these rates and arrangements effective, regardless of the action of its competitors, and will run special trains, only one night out to and from Colorado, on the dates named.—Chicago Inter Ocean.

Plans for the opening day of the Pan-American Exposition, May 1st, are now well advanced. The exercises inaugurating this splendid international festival of occidental nations will befit the importance of the event. At 2 o'clock in the afternoon, in the beautiful Temple of Music, it is proposed to start the machinery of the Exposition. The train carrying the President of the United States and his cabinet from Washington to the Pacific Coast will be connected by telegraph with electrical apparatus in the Music Temple and this apparatus will be connected with the great electric generator in the Electricity building. Direct telegraphic communication will be made at the same moment between the executive offices of the Presidents of all the republics of the hemisphere, and the Governor or General of Canada, and the electrical apparatus in the Music Temple. At 2 o'clock, Buffalo time, by arrangement with the cable companies leading to South America, and with the Atlantic cable companies the presidents and rulers of all countries of the Western Hemisphere will be requested to touch an electric button in their office which will thus start a peep of machinery of the exposition.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail, also pamphlet telling all about it, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

The Best Remedy For Rheumatism.

QUICK RELIEF FROM PAIN.
All who use Chamberlain's Pain Balm for rheumatism are delighted with the quick relief from pain which it affords. When speaking of this Mr. D. N. Sinks, of Troy, Ohio, says: "Some time ago I had a severe attack of rheumatism in my arm and shoulder. I tried numerous remedies but got no relief until I was recommended by Messrs. Geo. F. Parsons & Co., druggists of this place, to try Chamberlain's Pain Balm. They recommended it so highly that I bought a bottle. I was soon relieved of all pain. I have since recommended this liniment to many of my friends, who agree with me that it is the best remedy for muscular rheumatism in the market." For sale by all druggists.

Concerning "Bad Men."

A series of studies of "Bad Men" is begun in the April number of Everybody's Magazine. Owen Wister writes of this primitive type of frontier celebrity in a most interesting way, distinguishing between the real desperado and the reckless cowboy or prospector, who frequently shoots and kills under the influence of excitement. In a long residence in the far West, Owen Wister learned the wild life of the plains and mountains better than most men, and no one is more able to express the curious characteristics of the frontiersmen who in the early days were either summary executioners of law or daring and brutal bullies with a lust for bloodshed. The "Bad Man" is now almost an extinct type, even in the Southwest.

A Testimonial from Old England.

"I consider Chamberlain's Cough Remedy the best in the world for bronchitis," says Mr. William Savory, of Warrington, England. "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." It is a great pleasure to the manufacturers of Chamberlain's Cough Remedy to be able to publish testimonials of this character. They show that great good is being done, pain and suffering relieved and valuable lives restored to health and happiness by this remedy. It is for sale by all druggists.

Seton-Thompson's New Story.

The story of a duck is the newest thing which Earnest Seton-Thompson, the author of "Wild Animals I Have known," has written. It is called "The Mother Teal and the Overland Route," and will be published in The Ladies' Home Journal.

The Best Blood Purifier.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at all druggists.

With Joe Jefferson Out Fishing.

Joseph Jefferson, the actor, recently took one of the contributors of The Ladies' Home Journal with him on one of his famous fishing trips on the coast of Florida, and the story of the trip, with photographs of the actor at his favorite sport, will shortly be given in the magazine.

SENATORS ELECTED.

Dietrich and Millard the Lucky Men.

Rosewater and Thompson Will Draw and Compromise Candidates Are Chosen.

Lincoln, Neb., March 23.—This morning the Republican caucus nominated J. H. Millard, of Omaha, for the long term and Gov. Chas. H. Dietrich for the short term for the United States senators from Nebraska.

Prior to this Rosewater and D. E. Thompson, the two leading candidates, withdrew and the two men nominated were named as a compromise.

Gov. Dietrich's election to the United States senate will raise Lieut. Gov. Savage to the office of governor, which the former will vacate on his qualification as senator. J. H. Millard and C. H. Dietrich, who were nominated by the Republican caucus this morning, were elected by the joint session at noon, each receiving seventy votes, the entire strength of the Republican members of the legislature.

Gov. Dietrich to Hold On.
Lincoln, Neb., March 23.—Senator-elect Dietrich announced definitely to-night that he would not resign as Governor until late in the fall, probably not until after election, barring, of course, an extra session of Congress, which he did not regard as probable.

Marion Kooke, manager for T. M. Thompson, a large importer of fine millinery at 1635 Milwaukee Avenue, Chicago, says: "During the late severe weather I caught a dreadful cold which kept me awake at night and made me unfit to attend my work during the day. One of my milliners was taking Chamberlain's Cough Remedy for a severe cold at that time, which seemed to relieve her so quickly that I bought some for myself. It acted like magic and I began to improve at once. I am now entirely well and feel very pleased to acknowledge its merits." For sale by all druggists.

A CLEVER CROOK.

Stole Watch and Money While Telling His Victim How He Did It.
Two or three persons of experience were talking the other day about things that had happened to them, according to the Washington Star.

"A circus came to my town last summer," said one, "and a friend of mine, getting into the crowd in front of the tent, had his pockets picked. His gold watch was taken, and he was anxious to recover it, but the circus was making but a one-day stand, and was gone in the morning, the 'smart set' presuming going with it. My friend and two detectives followed the circus into the next town, with the hope of running up with the pickpockets and recovering the watch. For the interest of the thing, I went along. We saw two or three smart-looking chaps on the train, whom we marked as likely to be 'professional,' and they got off just before we did, but we saw no more of them after we had worked our way into the circus crowd. We kept our eyes about as pretty sharp, the detectives close upon our trail, in hope that the pickpocket would be tempted by a rather conspicuous watch chain I wore, but we did not see anyone who excited our suspicion, nor did anyone appear disposed to molest us. My friend and I were about expressing our disappointment, when I noticed that my watch and chain were gone. My friend and myself and the detectives had been on the alert every minute for just that thing, yet the watch was taken without either of us seeing when it was done. Casting hastily about us, there was no one in sight against whom suspicion might properly be directed. My curiosity and admiration were excited by the skill of the thing, and having no hope of being able to capture such a cunning thief, I determined at least to find out how it was done, though I might have to pay well for it. I had about \$300 with me—two \$50 bills and a hundred in smaller bills. Addressing the group about us, I declared that I would give \$100 for the return of my watch, if the man who took it would show me how it was done, and that I would not have him arrested. After I had called out this proposition two or three times, a well-dressed, alert-looking chap stepped up to me and handed me my watch. Restoring the watch to my pocket and slipping the chain guard safely through a buttonhole of my vest, I demanded to know how the theft had been accomplished without attracting my attention. By way of response the smart young man again handed me my watch, having relieved me of it a second time while I talked with him. Twice during the discussion he did this, and then, thinking he had earned the money, according to my promise, I took out my pocket book and gave him one of the \$100 bills, first being sure that I had my watch snugly in my pocket. He smiled, thanking me with an easy grace, and slipped away among the circus crowd, while my friend, myself and the detectives took our departure. At the end of the two or three minutes it took us to get out of the crowd I discovered that not only had my watch been again stolen, but that my pocketbook also was gone."

During the last decade our export trade with Australia has increased in value more than 100 per cent., and we now export to Australia six times as much as Germany does, and stand next to Great Britain in the supply of that commonwealth.

Consumption

is, by no means, the dreadful disease it is thought to be in the beginning.

It can always be stopped in the beginning. The trouble is; you don't know you've got it; you don't believe it; you won't believe it—till you are forced to. Then it is dangerous.

Don't be afraid; but attend to it quick—you can do it yourself and at home.

DEAN UNSELFISH DAN.

"Most everyone that knew our Dan agreed he was the kindest man they ever saw. He had the knack of doing his own brand of back. The burdens on the steps and poles belonged by rights to other folk. If anyone was in distress, 'An' went to Dan, he'd say: 'I guess we'll pull you out all right; let's see—Suppose you leave all that to me.'"

Was nothing 'nearer than the way he cared for poor old Uncle Jay, who was the most unlicked hand for havin' trouble with his leg. 'Bout taxes, or the early spring plowin', or some other thing. That plumb onto the poor old man. Then, in the nick o' time, our Dan steps in, and says: 'Oh!' says he, 'Suppose you leave all that to me.' '—A. J. C. Co. and Prince.

NICKODEMUS.

BY F. H. HIRSHMAN.

Nickodemus was a miner's "best friend," which, as everyone knows, means a burro. Like his tail, his name had been abbreviated, and as Nick he was familiarly known by the entire camp.

The camp consisted of two miners and a mucker. They and Nick were working the "Manzanito," a promising prospect-hole upon the mountain side a few hundred feet above Chimney gulch.

Three hundred pounds of ore at a trip, and six trips a day made a shift for Nick. Alternate days he was relieved of his ore panniers and hitched to the astras beam, where he did his stung dragging a big rock round and round on top of the ore in the astras pit.

Then his back didn't ache at night, nor his ribs feel sore as when he carried those heavy, wearisome old ore panniers for ten hours on end.

On one-acking days when night had come he would stand a long time with his big ears drooped dejectedly forward, looking the picture of desolation. For he was too tired to move. On clean-up days when the sun had dropped down near the tops of the big bull pines, Nick knew it was about time for the harness and collar to come off, and, with his neck gear loosened, he made a bee line for his deer brush, which grew thick on the mountains, for deer brush was the hot bird and cold bottle of Nick's bill of fare.

An idle burro's brain is the devil's workshop, no less than an idle miner's, mucker's or anyone's else, for the matter of that, and when Nick laid up that fateful day he dropped his long ears forward and listened intently for the accustomed sounds that came from the little cabin down on the creek.

No spire of blue smoke arose from the rude rock chimney where the mucker always kindled his fire of mornings. Something was wrong—radically wrong. Such proceedings were totally out of line with the routine of the camp during the entire six months that Nick and they had struck pay ore upon the mountain side.

Throwing his ear back at a vicious angle, Nick threw a few staccato notes upon the morning air. After bounding from side to side of the canyon his voice died to stillness, leaving him to solitude and amazement.

"This is funny," thought Nickodemus. "I'll go down and see what's up."

The door was closed and no sound came from the little cabin.

"This is funny," thought Nickodemus to himself. "Something is out of gear sure."

Going back to the cabin he nudged against the door with all the might of his big rough legs. The door moved on its hinges and left him staring into the deserted room.

Just to the right, as Nick looked in, there lay a flour sack upon the floor. He nibbled for this and drew it to him. How nice it tasted, that delicate soft paste made by his moist mouth and the flour that had sifted through to the outside. "I'm glad they went," thought Nick, as he munched his novel breakfast.

Something rattled inside the sack as Nick neared its consumption, a sound like the top of a cap box coming off followed, and before the mucker's cry of "Come out there, you bad, blasted robber," fell upon his big ears, the golden grains of the last day's cleanup had passed with the flour sack into Nickodemus' stomach, and the cap box and top rolled out upon the cabin floor.

"Follows, he's up to the cleanup," cried the mucker in dismay, as the rest of the camp came up with a deer

shoulder. "I put that dust in a cap box in that sack, when we started out hunting this morning, so's nobody'd ever suspect its being there, and here this bloomin' beast's broke in and swallowed the whole business; what the dickens were goin' to do about it?"

"Cut him open and pan his stomach, I guess is the only way to get it back," replied one of the camp, as he lowered his end of the pole and let the deer fall to the ground.

"Not on your life," replied the junior partner. "Cut up a \$40 harrow to pan out a measly \$50 worth of dust! Well, I guess not! What you fellows thinking about?"

"Well, how the Sam Hill you goin' to get it, then?" rejoined the mucker. "That's what I'd like to know, too," said the senior member, as he eyed his partner inquiringly.

"Why, that's dead easy; make him cough it up, and you and Jim stand there with a bucket and catch it, while I do the doctoring."

"Great head you've got; but what you goin' to give him to make him cough it up?"

"That's all right. I'm the doctor in this business. You and Jim just tie Nick up so he can't toss his head too much, and then you two get on your back with your bucket and catch that gold dust when it comes your way."

Without more ado Nick was tied hard and fast to a stout young pine, while the mucker rustled up an old five-gallon oil can, with the top cut out.

Meanwhile the junior partner's brain was busy.

As if aware of the designs against his digestive organs, Nick opened his capacious mouth and bellowed as if imploring help from some sympathetic friend. His mournful cries were wasted on the mountain air, and the ears of his only listeners.

"I reckon you'll cough up that dust now, old boy," cried the mucker as he came out of the cabin carrying a stick of dynamite in his hand.

"You ain't goin' to tannp him with dynamite, are you?" asked Steve. "Maybe we'd better try hot water and mustard first; I remember mother used it to get a penny out of me that I'd swallowed one day when I was a kid. It didn't take long either. Maybe that'd be better 'n dynamite for Nick, dynamite might kill him, and we can't afford to lose old Nick at this stage of the game."

"I ain't goin' to tannp him with it, you crazy; I'm goin' to crumble some and burn it under his nose. Get on your back with that can, you fellows, and play ball!"

Crushing a quarter of a stick in an old fire shovel, the mucker tossed a match to it.

Tied as he was hard and fast to the stout pine sapling, Nick couldn't get his head away from the fire shovel and that villainous smell. Up rose the sickening fumes into his palpitating nostrils and passed on down to his lungs. Oh, how vile it was! How cruel to treat poor, faithful, hard-working Nickodemus!

"What had he done to deserve it; would they ever take that infernal shovel away and let him smell the sweet mountain air again? O, for one more day among his delicious deer brush before he died. Even years more with the ore panniers and the big trips every day and the tired back and galled withers would be better than this slow and inhuman torture. Would it ever cease?"

And then a dizzy sickness came over Nickodemus and as through a mist he saw two men who jammed something over his mouth and tied it there a long, long time while convulsions seized his internals and as the sea when it gives up its dead so he felt as he reached up that \$50 worth of gold dust and the remains of a 48-pound flour sack.

For a half hour afterward Nick lay exhausted and grunting under the pine tree where he had lately been tied. The astras didn't run for two whole days, and there was no ore brought down the steep little trail during that time, but Nick was in his deer brush on the evening of the third day, for dynamite sickness fortunately isn't often fatal.—Boston Globe.

Abandoned Farms.

The selling of abandoned farms in New Hampshire has prospered as in Massachusetts, and a large number have been taken up by former residents and natives of the state for summer homes or to retire upon in later life. Inquiries made in 136 towns in the state show that 849 farms, or parts of farms, have been taken up in this way, and they bring into the state,

A Cup of Good Coffee

To get a really good cup of coffee you'll have to start back of the actual making; you'll have to look to the roasting and the grinding. In ARBUCKLES' you have a coffee that's scientifically roasted, and delivered to you with all the pores of the berry hermetically sealed. You're sure of a good cup of coffee because all the coffee flavor and aroma are kept intact until you want it. The fame of ARBUCKLES' induced other coffee packers to put out imitations of it. These imitations cost the grocer (and you) a cent a pound less than ARBUCKLES'. But don't be tempted to buy a package of some other coffee when you can get

Arbuckles' Roasted Coffee

for it is actually less expensive than the cheap kind; goes further—besides being better flavored, more satisfying.

You will find a list of useful articles in each package of Arbuckles' Coffee. A definite part of one of these articles becomes yours when you buy the coffee. The one you select from the list will be sent you on condition that you send to our Notion Department a certain number of signatures cut from the wrapper.

PEARLS;

How to Find and How to Value

THEM.

Copyright 1904, by Herman Meyer, Pearl Expert of 41 & 43 Maiden Lane, New York City.

SECTION IV.

Pearls should not be carried loose in the pocket, or in a paper or tin box. The best way is to fold (not roll) them in a piece of good strong tough paper. If tissue paper can be easily obtained fold fine ones separately in it first, and then in a tougher paper. Tough paper is not necessarily thick, but paper hard to tear. They can then be sent by ordinary registered letter or by express in a good tough envelope to any part of the United States with the utmost safety.

Pearls are a life-study in themselves, and a man must handle many hundreds daily in order to be fully conversant with their value.

In pearls, as well as in any other thing in commerce, a man should attempt to reach headquarters as far as possible, and the man who sees pearls every day, from all localities, and who thoroughly understands the market and the fashions, is prepared to do more for you by advice and by price than the man who only handle a pearl occasionally.

Now just a short resume:—Only good shaped pearls which are bright have much value. Those which are good shape and medium bright have little value. Those which have very bad shape or perfectly dull have no value. They are found in the flesh of the mussel or fresh water clam, inside the live shells. They should be carefully wrapped when sent by mail. To get the best value you should send them to a man who makes a specialty of handling pearls. Pearl work can be done at odd times, and it pays about three times as much as any other form of labor, provided that you have the courage to stick at it for a few hours until you get your first good pearl. Remember, perseverance wins. Keep at it; you are sure to be well rewarded.

We should feel proud of our beautiful country when we remember that it produces so liberally those beautiful gems in such great variety and profusion. The most exquisite colored pearls in the world are found in America, and some of our white pearls surpass any other white ones. Prejudice against home product prevents their price equaling oriental pearls.

Pearls are the only gem given us by animal nature, the most beautiful of all. Other gems are the products of mineral nature. As our sore trials bring out good results when rightly borne, so the suffering of the poor mussel yields the beautiful shimmering pearl.

Only two books have ever been written on the subject of pearls; only one by an American—Vane Simmons. Mr. Simmons is well known as a man who knows how to fish for pearls, and how to write about them. He has issued a beautiful booklet on the subject. It is called "Fresh Water Pearls," and is most interesting to all, and doubly interesting and useful to a pearl fisher. Its price is merely nominal, while the value is great.

It has been my lifelong duty and pleasure to answer each letter sent from pearl men regarding pearls and how to get them. You will receive a prompt and courteous reply to any letter you write me. No charge is ever made for such information. Study over these articles well, and if there is anything that you do not understand, write me frankly. But it would be much wiser to go to the river and give me a good fair trial and learn what you can, and then send me your first results for an examination and report of their value and of what they indicate is to be expected by longer search.

There are no rules, regulations or laws against fishing for these shells in any manner at any time and place you desire. Two bills were introduced in the United States Congress last winter to put a stop to all pearl fishing. But the pearl fisherman has always found me to be his friend. I at once discovered these bills were introduced by some men who owned large numbers of pearls and button shells and wanted a law to stop all fishing in order that their stock on hand might rise in value, as no new shells could be lawfully taken from the river.

pearls on hand, but it would have hurt the fishermen and so would hurt me in the end. They introduced these bills very quietly, thinking that no one but poor helpless fishermen was concerned, and that the law would pass at once. I took my time from work and money for the expenses, and went to Washington and fought it tooth and nail. I was the only man who gave the bill an hour of work or cent of money, etc. As I had the good solid truth to back me and worked hard and earnestly, I won for the pearl fishermen. You are now as you are to be breath the air of heaven.

The pearl is a great distributor of wealth. It drains money from the wealthiest people of the cities and takes it to the farmer, fisherman and laborer along the streams of our country. Then the money is redistributed to where it is needed most good, and every cent of it is spent at home. For pearls require no experience to find, nor tools to cultivate, nor land to grow, nor machinery to produce. They are a pure gift of nature for the lining of the pockets of the people of America who live along its water courses. You will be twice blessed if you see this fact now act upon it at once.

Remember that I shall be glad to hear from you, once and all. Give the work a trial now. You will always be glad you did. Stick at it a week and you are sure to have fine results in cash.

Sincerely your friend,
HERMAN MEYER.

Wild Pigeons.

After a complete disappearance for many years, and after the belief of their extermination had grown to certainty, they have made their re-appearance in great numbers on the Pacific coast. Mrs. Fannie R. Porter of San Louis Obispo, Cal., writes her mother, Mrs. Olivia Rogers, of this place: "Great flocks of wild pigeons have made their appearance here. They come by thousands and I hear are doing much damage to growing wheat. It doesn't take them long to destroy a wheat-field and the farmers are considerably exercised. One of my boys killed 84 across the creek from where I live a few evenings ago. They are fat plump and tender, are delicious to eat and sell at \$1.25 per doz. I do not think they are exactly the same pigeon as the ones I left back in Kentucky as they are of a blue coloring like a dove. But they are very common and thousands of them."

It has been fifteen or twenty years since wild pigeons were last seen in this country. The birds suddenly and completely disappeared from their usual haunts, and it was currently reported that millions of them had been overtaken in a storm somewhere off the southern or western coast, in passing from mainland to islands, and all drowned in the ocean. Not one was ever seen afterward, and it is said the Smithsonian Institute has for several years offered a standing reward for a live wild pigeon. Their sudden re-appearance will excite much interest among ornithologists everywhere. Where they have spent the years of their exile from home is a question that will probably remain forever unanswered.—Glasgow Times.

Will the Steel Trust Avert Panics?

This new amalgamation, together with two or three other vast aggregations of the capital such as the Standard Oil Company,—associated as these interests are most intimately with the leading banks and other financial institutions,—will now be able of its own sheer force to avert the more violent sort of panic that used to be the dread of all prudent business men. Thus it is at least highly probable that recent tendencies have made for an improvement in the delicate balance between supply and demand, and therefore may be expected to have a steadying effect and to make violent panics and violent booms less likely to occur than heretofore. It is also probable enough that this great organization, with its vast resources, can better protect its average dividend-paying ability than any one of the eight great companies by the union of which it has been formed. Whatever may be said by way of defense or praise of this great organization, the public will be fully justified in watching it with the most careful and

concentrated power that might conceivably be used to the terrible detriment of individual citizens and also to the harm of the people in the collective capacity as a self-governing republic. Such an organization must be just toward individuals and it must keep aloof from politics,—or else it must expect rocks ahead.—From "The Progress of the World," in the American Monthly Review of Reviews, for April.

"It's the little rift within the lute which ever widening, makes the music mute." It is just a little rift in the health of a woman often, which gradually takes the spring from her step, the light from her eyes, the rose from her cheek and the music from her voice. Perhaps the bug-bear which has frightened the woman from the timely help needed at the beginning has been the dreaded questions, the oozing examinations, the local treatments, of the home physician. There is no need for these. Nor is there need for continued suffering. Dr. Pierce's Favorite Prescription can be relied on by every woman suffering from what are called "female troubles," to renew the health of the system. Women are astonished at the results of the use of this medicine. It not only makes weak women "robust and rosy checked," it gives them back the vigor and vitality of youth.

Doctors Say;

Bilious and Intermittent Fevers which prevail in miasmatic districts are invariably accompanied by derangements of the Stomach Liver and Bowels.

The Secret of Health.
The liver is the great "driving wheel" in the mechanism of man, and when it is out of order, the whole system becomes deranged and disease is the result.

Tutt's Liver Pills
Cure all Liver Troubles.

Most women would rather burn up their husband's library than a bunch of old letters from other men.

Don't be Fooled.

It does not pay. If you have a good thing tell it right out. Don't use false means to attract attention. We say right out and mean it, too. That Dr. Caldwell's Syrup Pepsin will cure any case of stomach trouble. It will stop any pain caused by indigestion; it cures sick headache by attacking the cause of the complaint and aids you to digest your food so matter what you eat. Sold by C. K. Wyle.

If men had to wear women's clothes in the winter they would die of pneumonia.

"Stick to it."

George L. Heard of High Tower, Georgia writes: "Eczema broke out on my baby covering his entire body. Under the treatment of the family physician he got so bad he could not sleep for the burning and itching. We used a box of F. Mearns Salve on him and by the time it was gone he was well. The doctor seeing it was doing him good said, 'Stick to it for it is doing him more good than anything I have done for him. All druggists.'"

A man can always tell when a girl tries to look at him with "dull, unseeing eyes."

Given up to Die With Croup.

Mrs. P. L. Cordier of Maunington, Ky., writes: "My three year old girl had a severe case of croup, the doctors said she could not live and I gave her up to die. I went and got a bottle of Foley's Honey and Tar, the first dose gave quick relief and saved her life. All druggists."

The dimple in a pretty girl's shoulder ten years after is only a crease in a fat face.

Nearly every person needs a tonic medicine at this time of the year to brace up and invigorate the nervous system, to cleanse the bowels, liver and kidneys. Herbin is the best and safest remedy to do this, it will cure constipation, regulate the liver and enrich the blood. Price 40 cents.

A woman has the same confidence that she will know how to take care of a baby that a man has that he understands all about politics.

The Most Stubborn Coughs resulting from an attack of la grippe or heavy cold, must yield to the wonderful healing properties of Foley's Honey and Tar, which strengthens the lungs and makes them strong. All druggists.

After a woman has been married six months she would just as lief kiss her husband with her mouth full as any other way.

Most women with female weaknesses suffer dreadfully with piles, in addition to their other pains. They may be cured by using Tabler's Buckeye Pile Ointment. Price, 50c in bottles. Tubes 75 cents. R. C. Hardwick.

Women get engaged from practice and married from principle with men it's the other way.

B. PROSSON, Prossonville, Kan. writes: "Nothing like Foley's Honey and Tar, is the universal opinion of all who have used it. Especially has this been true of coughs accompanying la grippe, not a single bottle failed to give relief. All druggists."

If an umbrella were made of only one rib, like a woman, you would never shut it up.

Get What You Ask For!

When you ask for Cascarets Candy Cathartic be sure you get them. Genuine tablets stamped C. C. C. Never sold in bulk. A substitute is always a cheat and a fraud. Beware! All druggists, etc.

There are two miles of wall in the royal gardens devoted to 250 sorts of wall fruit.

An ounce of prevention is worth a pound of cure, and a bottle of Ballard's Horehound Syrup used in time is worth a staff of physicians with a drug store or two included. Price 25 and 50 cents. R. C. Hardwick.

GRAND OPERA IN CINCINNATI.

A Festival Occasion With All the Great Artists From the New York Metropolitan Opera House.

The old Opera sentiment of Cincinnati and vicinity is sure to be revived this year unless all signs fail. On the evening of Friday, April 18th, and afternoon and evening of April 20th, three performances are announced in Cincinnati Music Hall in which will be presented the entire force of the Metropolitan Opera House of New York, Maurice Grau, Director some 250 people in all, with the orchestra conducted by Walter Damrosch the scenery from New York and the ballet.

The great Jean DeReszke, who is paid \$2400 for each performance, the incomparable Melba, with Lillian Nordica, Milka Ternina, Madame Schumann-Heink, Madame Louise Homer, Andrew Dippel, Mr. Cremonini, David Bispham, Pol Plancon, Robert Blass, Edward DeReszke etc. etc. will all be heard in their best parts.

The opera for the opening night will be decided by popular vote of season subscribers. The voting, which will close Saturday night March 30th indicates that the popular choice will be Wagner's "Walkure" with Ternina, Schumann-Heink, Susan Strong, Mr. Dippel, Mr. Blass and Mr. Bertram. The opera will be given with the perfection which has made it one of the great successes this year in New York.

The matinee opera is "Tristan and Isolde" with Jean DeReszke, Lillian Nordica, David Bispham, Edward DeReszke and Madame Schumann-Heink, such a group of artists as cannot be equaled at any Opera House in the world. Walter Damrosch will conduct both these performances. Saturday evening, April 20th, Madame Melba makes her only appearance in the familiar opera of "Lucia Di Lammermoor," and with her will be heard Mr. Cremonini and Mr. Campanari and the great French bass, Mr. Journet. It is a double bill for Saturday evening, as "Cavalleria Rusticana" with Miss McIntyre, Madame Homer, Mr. Scotti and Mr. Salignac will also be given.

All the railroads centering in Cincinnati will make a reduced rate of a fare and a third—tickets good from the 19th to return not later than the 21st and all the roads will hold their late trains. Season ticket orders can be sent by mail this week only to the John Church Company, Cincinnati, with cheque made to G. H. Wilson and the seats will be selected as orders are received.

The following low scale of prices for season seats has been adopted: \$4, \$5, \$7.50 and \$10. Beginning Monday, March 31st the single seat scale will open at these prices: \$1.50, \$2, \$3, and \$4. Orders with cheque will be recognized and seats reserved.

Certainly with this indorsement the entire musical public of this part of the country will be present in Cincinnati on April 19th and 20th.
